SUBJECT INDEX VOLUME 14

July (pp. 1–132); August (pp. 133–284); September (pp. 285–436);
October (pp. 437–586); November (pp. 587–728); December (729–910)

Aging
  effect of exercise on, 747
  and strength of heart, 771
Altitude
  effect on cardiac performance, 796
American College of Cardiology
  annual meeting 1965
    announced, 130, 282, 434, 584
    call for abstracts, 130, 282, 434, 584
    highlights of, 726
    program, 894
  dues structure changed, 129
  educational programs, 580
  international circuit courses
    No. 10 to Southeast Asia announced, 430
  postgraduate programs
    calendar 1964–65, 130, 282, 433, 583, 727, 901
    in Kingston, Jamaica, 901
    in La Jolla, Calif., 432, 727
    in Lexington, Ky., 280
    in Los Angeles, 583
    in Philadelphia, 288
    in San Juan, P. R., 901
    in St. Louis, 431
  President's Page, 580, 724
  tutorial program of College, 510
  White, Paul D., citation, 724
  Young Investigators' Award for 1965 competition announced, 131, 283, 435, 585
American Journal of Cardiology
  editorial board, new, 129
  information for authors, 132, 284, 436, 585, 728, 902
Amotriphene, effect on arrhythmia, 522
Aneurysm
  congenital, of membraneous septum, 112
  syphilitic, of ascending aorta, ruptured, 717
Angiocardiography
  atrial lipoma, diagnosis by, 396
  brachial artery, percutaneous, noncatheter, 427
  complications of, 437
  indication for, 437
  interpretation of, 437
  left retrograde, in acquired heart disease, 437
  persistent superior vena cava identified by, 573
  technic, 437
  third atrial chamber detected by, 709
Angiotensin
  hemodynamic effects, 362
  for shock after myocardial infarction, 370
Antazoline, effect on arrhythmias, 513
Anticoagulants in preinfarction syndrome, 55
Aorta
  arch of, embryology of right-sided, 702
  ascending, conditions of, simulating valvular incompetence, 679
Aortic insufficiency, upstroke time ratio in, 163
Aortography
  cineaortograph in silent aortic regurgitation, 628
  translumbar renal, 125
Arrhythmia
  amotriphene, effect on, 522
  antazoline effects on, 513
  atrial fibrillation
    cardioversion for, 94
    effect of drugs on, 828
    effect of exercise on, 828
    paroxysmal simulating ventricular tachycardia, 248
    pattern of atrial f wave in disease, 175
    with syncope, 483
  atrial parasystole, 255
  A-V dissociation, congenital and familial, 118
  cardioversion of atrial fibrillation and flutter, 94
  caused by atrial lipoma, 394
  congenital cardiac, 118
  coronary sinus rhythm in sinus venosus defect, 608
  digitalis-induced, treatment for, 650
  pacemaker for, by paired pulse, 374, 385
  ryanodine in dogs with digitalis-induced, 658
  tachycardia
    nodal, induced by potassium, 357
    paroxysmal, and flutter, differential diagnosis, 79
    reserpine for, 89
    ventricular, simulated by atrial fibrillation in WPW syndrome, 248
  ventricular fibrillation
    closed chest resuscitation by machine, in dogs, 193
    countershock, A.C. and D.C., for, 504
    danger of inducing, by electric shock, 537
  ventricular flutter and fibrillation, relation to tachycardia, 97
Artery
  brachial, angiocardiography through, 427
  coronary arteriosclerosis vs. isolated placques in infarction, 69
  pulmonary
    idiopathic dilatation of, 75
    left, absent, 702
    right, absent, 262

Ballistocardiogram in physical conditioning, 761
Bernheim's syndrome, 568

Biopsy
renal, in hyperaldosteronism, 553
myocardial, 675, 723
Blood
arterial, O_2 saturation in congenital heart disease, 622
volume and cardiac performance, 784
Book reviews
An Outline of Pulmonary Function and Pulmonary Emphysema (Rosenman), 892
Arterial Surgery (Mackey, Macfarlane and Christian), 429
Blood Pressure of Adults by Age and Sex (National Center for Health Statistics), 429
Calcifications of the Heart (Shapiro, Jacobson, Rubinstein, Poppel and Schwedel), 126
Clinical Principles and Drugs in the Aging (Freeman), 892
Physical Diagnosis of Heart Disease (Fowler), 279
Research in Emphysema and Chronic Bronchitis. Normal and Abnormal Pulmonary Circulation (Grover), 126
Sinoatrial Heart Block (Greenwood and Finkelstein), 429
Treatment of Carbon Monoxide Poisoning by Administration of Oxygen at High Atmospheric Pressure (Sluijter), 892
Vascular Allergy and Its Systemic Manifestations (Harkavy), 126
Bronchopulmonary disease, chronic obstructive, relieved by heparin, 25

Carcinoid heart disease, with patent foramen ovale, 242
Cardiac alternation, 420
Cardiac arrest, closed chest resuscitation by machine in dogs, 193
Cardiac catheterization
in Ebstein's malformation, 720
left atrial pulse in mitral valve disease, 154
valvular insufficiency occurring during, 533
Cardiac pacemaker
coupled pulse generator, 374, 385
secondary, dominant in sinus venosus defect, 608
site, effect of, in heart block, 494
synchronous P wave, in complete heart block, 477
Cardioangiography (see *Angiocardiography*)
Cardiology and international medicine, 724
Cardiovascular disease
and adiposity, 731
and obesity, 731
and physical activity, 731
statistical information on, 434
and work, 731
Cardiovascular function, effect of exercise on, 761
Catecholamines, effect of methyldopa on metabolism of, 641
Chelating agents, sodium and potassium citrate-salts for digitalis toxicity, 650
Cineaortography, in silent aortic regurgitation, 628
Congenital anomaly
absent left pulmonary artery with other congenital lesions, 702
aneurysm of membranous septum and bundle branch block, 112
arterial O_2 saturation in children with, 622
atrioventricularis communis, long term follow-up, 587
cor triatriatum
cause of mitral valve obstruction, 169
and partial anomalous pulmonary venous connection, 709
double-chambered right ventricle, 561
Ebstein's, 720
with congenital pulmonic stenosis, 695
familial A-V dissociation, 118
left superior vena cava, persistent, 573
mitral stenosis cause of valve obstruction in, 169
partial parchment heart, 415
pentology in pregnancy, 866
pulmonary artery, right, absent, 262
left absent, 702
pulmonic insufficiency, isolated, 456
tetralogy in pregnancy, 866, 874
scimitar totalis with other anomalies, 262
sinus venosus defect, 608
ventricular septal defect, 464
and trauma, 714
Congenital heart disease (see *Congenital anomaly*)
Countershock
comparison of A.C. and D.C. in myocardial function, 503
synchronized D.C., for atrial fibrillation and flutter, 94
Circuit course, international
No. 10 to Southeast Asia, 430

Digitalis
alterations of rhythm by, 483
and exercise in atrial fibrillation, 828
toxicity
producing syncope, 483
sodium and potassium citrate-salts for, 650
Drugs
amotriphene, effect on arrhythmias, 522
angiotensin
hemodynamic effects of, 362
for shock after myocardial infarction, 370
antazoline, effect on arrhythmias, 513
anticoagulants in preinfarction syndrome, 55
antihypertensive
bretylium tosylate and renal hemodynamics, 633
guanethidine and renal hemodynamics, 633
digitalis
alterations of rhythm by, 483
and exercise in atrial fibrillation, 828
toxicity, 483, 650
heparin
symposium on, 1–54
methyldopa and pheochromocytoma, 641

Drugs (*continued*)
reserpine, hemodynamic effects of, during tachycardia, 89
ryanodine in digitalis-induced arrhythmia, 658

Echinococcosis as cause of ventricular hydatid cysts, 237
Editorial, cardiac hypertrophy, biologic significance, 133
Electrocardiogram
analysis of data, 307
atrial f wave, diagnostic value, 174
in atrial parasystole, 261
in bronchial asthma, severe, in children, 616
in bundle branch block, 346
continuous recording and rapid analysis of, 204
display of data, 307
fetal, 530
in idiopathic myocardial hypertrophy, 218
lead systems, 317
left axis deviation, 330
in mercury poisoning, 179
in muscular subaortic stenosis, 599
in nodal tachycardia induced by potassium, 357
P waves associated with atrial lipoma, 394
in parietal and peri-infarction block, 331, 339
Q waves, abnormal, in subaortic stenosis, 599
Q waves abnormal and transient, 669
QRS complex, genesis of, 287
QRS patterns in mitral stenosis, 266
T wave and ventricular repolarization, 924
Electrocardiography
dipole theory, 301
equivalent generator, 301
relation to leads, 327
present status of, symposium on, 285–329
summary, 285
Electrodynamics
activation of the ventricular septum, 599
activation sequence in left and right ventricle, 287, 494
secondary pacemaker dominance in sinus venosus defect, 608
Embolism, heparin therapy, 36, 39, 49
Exercise
after cardiac denervation, 853
after myocardial infarction, 837
anerobic metabolism during, 844
and body weight, 753
and cardiovascular health, 731
and coronary heart disease, 753
during atrial fibrillation, 828
effect on body composition, 747
and heart rate, 811
and hypertension, 731
and lipids, 731, 753
and myocardial infarction, 731
and physical conditioning, 761
respiratory gas exchange ratio during, 844

Fistula, aortic-left atrial, 717
Frank-Starling law, 784

Heart
adjustments of, to altitude, 796
anerobic metabolism during exercise, 844
anomalies of (see *Congenital anomalies*)
blood volume and performance of, 784
cardiac output and exercise capacity, 853
conduction system, 287
injury of, due to surgery, 464
dilatation of, 784
electrodynamics of, 287
and exercise, 747
fetal, recorded by radioelectrocardiogram, 530
force and, 771
function measured in tension-time, 771
pacemaker, secondary, dominant in sinus venosus defect, 608
performance and altitude, 796
performance in obesity, 860
pulmonary respiration quotient, 844
repolarization of, 294
slowing of ventricular rate of, electrically, 374, 385
strength of, and aging, 771
tests of performance, 771
tests of work capacity, 837, 844
ventricular excitation, sequence of, 287, 494
work and, symposium on, 731–865
Heart block
A-V
due to surgical injury, 464
with atrial fibrillation and syncope, 483
bundle branch block, 346
right, and congenital aneurysm of membraneous septum, 112
complete
increasing cardiac output by P wave pacemaker, 477
remission of, due to intracardiac surgery, 556
effect of pacemaker site in, 494
parietal and peri-infarction, 331, 339
Heart disease
carcinoid, with patent foramen ovale, 242
coronary, prognosis, 890
Heart failure in obesity, 860
Heart murmurs
and alternation of heart sounds, 420
of pulmonic insufficiency, 456
"silent," of aortic regurgitation, 628
Heart sounds
alternation of, and murmurs, 420
split second, variation in left to right shunt, 201
Hemodynamics
and A.C. and D.C. countershock, 503
and angiotensin, 362, 370
of atrioventricular communis before and after surgery, 587
changed by paired pulse pacemaking, 374, 385
and guanethidine and bretylium tosylate, 633
mechanical systole in infants and children, 448
in mitral stenosis, 154
in pulmonic insufficiency, 456

Hemodynamics (*continued*)
and reserpine in tachycardia, 89
of ventricular pacemakers in heart block, 494
work and the heart, symposium on, 731–865
Heparin
activator in removal of tryglicerides from blood, 8
administration of, 36, 39
antiinflammatory functions of, 18, 25
in bronchopulmonary disease, 25
clinical experience with, 29, 36, 39, 49
for hyperlipemia, 64
indications for clinical use, 39, 49
in myocardial infarction, 39, 47
pharmacology of, 47
physiologic actions of, unrelated to blood clotting, 18
side reactions of, 36, 49
structure and activity, 3, 47
symposium on, 1–54
in thrombophlebitis, 29, 39
Historical Milestones
Limosin on pericarditis (1827), 226
Minkowski's esophageal recordings in mitral valve disease (1906), 107
Wells, on scarlatinal dropsy (1812), 547
on nonscarlatinal dropsy, 880
Hyperaldosteronism, 553
Hypertrophy, cardiac
deleterious and useful mechanism of, 133
following closed surgery for mitral stenosis, 139
idiopathic, electro- and vectorcardiographic findings in, 218
myocardial, in obesity, 860
ventricular septal, cause of subaortic stenosis, 599
Hypertension
effect of guanethidine and bretylium tosylate on, 633
Hypervolemia, effect on heart, 784
Hypovolemia, 784
Hypoxia and cardiac performance, 796

Infarction, myocardial, 331, 339
arteriosclerosis vs. plaques in, 69
preinfarction syndrome, 55
in progressive muscular dystrophy, 233
Q waves persistent in, 669
vs. right ventricular hypertrophy, 599
work capacity after, 837
Information for authors page, 132, 284, 436, 586, 728, 902
Instruments
closed chest cardiac resuscitation machine, 193
coupled pulse generator, 374, 385
electrocardiocorder-AVSEP continuous electrocardiograph system, 204
for myocardial biopsy, 675
Insufficiency
aortic, 163
pulmonic, 456
International medicine and cardiology, growth, 724

Letters to the Editor, exercise electrocardiogram, 274
Lipids and exercise, 731
Lupus erythematosus, 888

Metabolism, anerobic, during exercise, 844
Muscular dystrophy, progressive myocardial infarction in, 233
Myocardium
biopsy of, 675, 723
calcification of, with nephrocalcinosis, 407
function of, effect of A.C. and D.C. countershock on, 503
infarction of (see *Infarction, myocardial*)
partial absence of right ventricle, 415

Nephrocalcinosis, with calcification of myocardium, 407
New Method (see also *Instruments*)
myocardial biopsy, 675, 723

Obesity and cardiac performance, 860

Panel discussion
heparin, clinical usage, 39
structure and pharmacology, 47
Patent foramen ovale, in carcinoid heart disease, 242
Pericardium
pericarditis
caused by influenza virus, 428
Limosin (1827) on, 226
primary sarcoma of, 399
Phonocardiography
direct-writing, 101
in idiopathic dilation of pulmonary artery, 75
in pulmonic insufficiency, 456
Physical fitness, evaluation and prediction of, 811
Pregnancy
pentology in, 866
tetralogy in, 866
Preinfarction syndrome, 55
President's page, 580, 724
Pressure, left atrial pulse, in acquired mitral valve disease, 154
venous, elevated, 771
Prostheses, ball and seat, valve replacement, 148
Pulmonic insufficiency, 456

Radioelectrocardiography, fetal, 530
Regurgitation, "silent" rheumatic aortic, 628
Reserpine, hemodynamic effects of, during tachycardia, 89
Respiration
effect of, in left to right atrial shunt, 203
hyperventilation in cardiac patients, 844
pulmonary quotient and exercise, 844
Resuscitation, closed chest, by machine, in dogs, 193
Review
conditions simulating aortic valvular incompetence, 679
physical activity and cardiovascular health, 731

Septal defects, ventricular, spontaneous closure of, 578
Shock
  angiotensin for, after myocardial infarction, 370
  electric, hazards of, in cardiology, 537
Shunts
  and arterial O_2 saturation in congenital heart disease, 622
  left to right atrial, variations with respiration in, 201
  right to left, caused by functionally patent foramen ovale, 242
Stenosis
  mitral
    closed and open surgery for, 139
    congenital, 164
    hemodynamics in acquired, 154
    QRS pattern in, 266
  pulmonic, congenital, complicating Ebstein's anomaly, 695
  subaortic, due to ventricular septal hypertrophy, 599
Surgery
  cardiac, mitral and aortic valve replacement, 149
  intracardiac, remission of heart block after, 556
  open heart, for atrioventricularis communis, 587
  for ventricular septal defect, 578
Symposium
  on heparin, 1–54
  on electrocardiography, 285–317
  on work and the heart, 731–865
    summary of, 729
Syncope during atrial fibrillation and A-V block, 483
Systole, mechanical, in infants and children, 448

Tests
  of cardiac performance, 771
  of physical fitness, 811
  of work capacity after myocardial infarction, 837
Thrombosis
  coronary, with dystrophic and arteriosclerotic heart disease, 232
  diagnosis and treatment, 29
  heparin in treatment of, 29, 39, 49
  occlusive, with arteriosclerosis, 69
Trauma, and ventricular septal defect, 714
Triglycerides, removal from blood by heparin-activated lipoprotein lipase, 8
Tryptophan, effect of methyldopa, 641
Tumor
  hydatid cysts, ventricular, caused by echinococcosis, 237
  lipoma in atrium removed, 394
  myxoma, left atrial, and valve obstruction, 169

Heparin (*continued*)
  pheochromocytoma, metastatic, and methyldopa, 641
  sarcoma of pericardium, 399

Upstroke time ratio in aortic insufficiency, 163

Valve
  aortic, conditions of ascending aorta simulating incompetence of, 679
    insufficiency of, upstroke time ratio in, 162
  defects of, rheumatic, 628
  insufficiency, cardioangiocardiography in, 437
    during cardiac catheterization, 533
  mitral, disease of
    and left atrial pulse, 154
    Minkowski's esophageal recordings in, 107
  obstruction, unusual causes of, 169
  replacement by ball and seat prosthesis, 149
  tricuspid, congenital anomaly of, 695
    Ebstein's anomaly of, 720
Vectorcardiogram
  in bronchial asthma in children, 616
  in marked left axis deviation, 339
  in mitral stenosis, 266
  QRS loop, abnormal, in bronchial asthma, 616
Vena cava, left superior
  persistent, 573
  and sinus venosus defect, 608
Ventricle
  depolarization of, by paired pulse pacemaking, 374, 385
  double-chambered, 561
  hydatid cysts of, associated with echinococcosis, 237
  rate of, and cardiac output in heart block, 477
  right
    in Bernheim's syndrome, 569
    partial absence of musculature, 415
  septal defect of
    from blunt chest trauma, 714
    surgery for, 578
  sequence of activation of, 494

Wells, W. C., on scarlatinal dropsy (1812), 547
  on nonscarlatinal dropsy, 880
Wolff-Parkinson-White syndrome with atrial fibrillation simulating ventricular tachycardia, 48

Young Investigators' Awards, competition for 1965 announced, 131, 283, 435, 585
